

Name _____

Goal One:

- Type all **paragraphs** in AppleWorks
- Spell Check - Go to the Edit Menu- Writing Tools-Check Document Spelling.
- Proofread to pick up grammar errors.
- Next open up HyperStudio
- Make 8 cards. Apple N for new card. You will have a title card, 6 question cards, and a bibliography.
- Cards 2-7 Apple T for Add a text box.
- Copy one paragraph at a time into each text box.
- Copy (Apple C) from AppleWorks
- Paste (Apple V) into HyperStudio.

Goal Two:

- Type up your bibliography on Card 8
- To underline titles in the bibliography.
- Highlight sections that need to be underlined.
- Go to Format Menu.
- Drag the mouse to Text Style.
- Click on the box beside underline.
- Next: Start Adding Graphic Objects.
- Go to the objects menu to add graphic objects (this would be the pictures that you saved). It is better to add graphics than clip art because you can move them.

Goals Three:

- Finish adding graphic objects. Apple G
- Add buttons. Apple B- From title card to question cards, back to title.
- Look at rubric. How does your stack measure up.
- Start to clean up you stack.
- Read over it once more to look for any mistakes.
- Make up your index cards for your presentation.
- Is your stack in it in presentation mode? Are the card titles and menus off?

- Absolutely NO Sounds. This is a serious subject and animation or sounds would be disrespectful to all the victims.**

- Good luck on your presentation!!!!
